Valley Organic Growers Association's membership is rich in the number of individuals whose personal belief systems support our mission, principles, and vision. Although we are not a certification agency, we are committed to these principles within our producer membership. Please take a moment to review these statements and give us your signed support. Thanks.

The Mission of Valley Organic Growers Association is to promote local sustainable agriculture by supporting and educating producers and consumers.

Our guiding principles are:

- ♦ **Create and support viable local agriculture**
- ♦ **Maintain and improve the health of soil, air and water**
- ♦ **Ensure the production of nutritious food free from synthetic inputs**

We envision a vibrant community of prosperous, local farms that sustain the land and provide healthy agricultural products.

As a producer member of this organization, I support this mission, principles, and vision in my agricultural practices.
